Product Update Notes

Overhead Blacklines for Classroom Display

Due to the widespread and increasing use of document cameras and electronic white-boards, MLC has replaced the overhead transparencies with overhead blackline masters. These blacklines are included in the *Bridges* and *Number Corner* packages in both printed form and electronic form on the *Blackline Masters CD*. They can be displayed with document cameras, projected to electronic whiteboards or presentation screens, or used to create traditional transparencies.

All references to overhead transparencies in the Teacher Guides should be read as references to the overhead blacklines. Ready-made, traditional transparencies for overhead projectors are still available for purchase as an optional item.

The overheads listed below are also available in color on the *Blackline Masters CD* included in your Bridges package. Color files are designated with the letter “C” at the end of the file name.

Bridges Grade 4 Color Overheads: 1.7C, 1.10C, & 3.17C

Number Corner Grade 4 Color Overheads: 2.1C, 2.3C, 2.5C, 2.7C, 3.1C, 3.2C, 3.3C, 3.5C, 3.7C, 4.1C, 4.3C, 4.5C, & 8.3C

Practice Books

A blackline version of the new *Bridges Practice Book* is now included in the *Bridges* kit. Although this book is not integral to the original *Bridges* program, the pages may be assigned as seatwork or homework after Bridges sessions, or serve as a source for skill assessments or review. A bound version is available for optional purchase.

Getting Started

For your planning convenience, all sessions and workouts include lists of the specific materials needed to conduct the lesson. There is also a comprehensive list of the materials you need to gather and the blacklines you need to photocopy at the beginning of each Bridges unit and Number Corner month. Additional information on general and specialized materials can be found in the *Getting Started* teachers guide.
